## FLOOR CARE

## Gas 20" Burnisher

When you want 1,900 square meters per hour straight line gas burnishing, you can rely on the legendary long life and reliability of the Polivac 20 Gas burnisher.

Fitted with the new Closed Loop Engine Emission technology, it automatically ensures that CO emissions are minimised and maintained at safe levels, below the workplace exposure standard determined by Safe Work Australia.

All Australian-made, the Gas 20 has been specifically designed for Australian operating conditions.

and Technical Specifications.

# Our most manoeuvrable gas burnisher ...the Gas 20" for high efficiency coverage of medium to large areas.

## Fully featured, state-of-the-art burnisher

This compact high speed machine delivers 13 horsepower (and more\*) in a balanced, Operator-friendly package.

Smooth to operate and easy to use, the Gas 20" punches above its weight compared to other machines in its class.

All Australian-made, the Gas 20" has been specifically designed for Australian operating conditions.

## Power 'plus' - 2500rpm

High performance combined with ultimate reliability...the Gas 20" Honda motor comes in either 9.69 kw (13 hp) or the 11.19 kw (15 hp) V-twin version.

*\* An 11.19 kw (15 hp) V-twin Kawasaki unit is also available.*

## Single stage active vacuum system / floating skirt

The skirt is positioned within the machine body for greater protection as well as containing the dust so that the active vacuum system leaves the floor dust-free.

## Push-button, electric start

Easy starting every time from the 12 volt, long life battery.

## CLOSED LOOP ENGINE EMISSIONS TECHNOLOGY

The steady delivery of fuel ensures that CO emissions are minimised and maintained at safe levels, well below the workplace exposure standard determined by Safe Work Australia of 30 ppm.

## Bias control

This allows the Operator to easily align the machine to prevent any sideways drag - resulting in much smoother, easier operation.

## Powder-coated steel base for maximum strength and minimal cleaning

Built to last, the Gas 20" solid construction and highly durable finish ensures long life with maximum presentation.

## Easy access to belt and drive system

Ease of maintenance and servicing eliminates costly and unnecessary downtime.

## TECHNICAL SPECIFICATIONS

MODEL	GAS 20"
MOTOR	9.69 kw (13 hp) Honda or the 11.19 kw (15 hp) V-twin version, or 11.19 kw (15 hp) Kawasaki V-twin
PAD SPEED	2500 rpm
WEIGHT	95kg
DRIVE	Belt
VACUUM	Single stage, active centrifugal with metal impeller
BATTERY TYPE	12 volt, 20 amp hour, gel, sealed
GAS BOTTLE	9 kg (Optional extra)
NOISE	89 db
START	Electric
FINISH	Industrial enamel and powder-coated.
WARRANTY	1 year on motor and parts

Increased productivity  
through intelligent design
